

BERKSHIRE HOSPITALITY

Product Guide 2025

Berkshire Hospitality is committed to protecting the environment without affecting the *quality, durability, or price* of its products.

ecofiber™ fabrics are made with recycled plastic bottles to create bedding with less waste and a reduced carbon footprint. By using ecofiber™ recycled yarns, and engineering products to be longer-lasting, we are reducing landfill waste, operating costs, energy consumption, and lowering our carbon footprint.

ecofiber™ cotton rich products are made from a blend of 60% BCI cotton grown using eco-friendly methods and 40% recycled polyester. The Better Cotton Initiative promotes eco-friendly practices, including reduced pesticide use, water conservation, fair labor, and soil health. Recycled polyester from plastic bottles helps reduce waste and carbon footprint.

DuraWhite™ will keep your bedding looking as fresh, clean, and white as the first time you unfolded it.

Our textile engineers have poured countless hours into developing our proprietary DuraWhite™ technology. DuraWhite™ provides unmatched color fastness and durability.

Longer lasting fabrics will maximize the product lifespan and lower replacement costs.

No yellowing. No fading. Just pure bright white.

Laundry with confidence.

Quilted Scarves and Standard Shams

Casino

Casino quilted scarves and shams feature a striking modern geometry of diamonds and squares. Deep earth tones add a pop of color.

Color: Canyon

- 85 GSM Pongee microfiber fabric with 100 GSM recycled polyester fill
- 33% recycled fiber, 100% recycled fill
- Scarves have single needle stitched 1" hems with mitered corners
- Knife-edge shams with 2" self-flange and 4" back overlap
- Luxuriously soft
- Engineered for easy care and unmatched color fastness
